

SAGAR

Full-Stack Developer in Progress | India / Remote | Open to Opportunities
github.com/yourusername | linkedin.com/in/yourusername | your.email@example.com

PROFILE

BCA student focused on building practical web applications and developing strong full-stack fundamentals. Currently working with React.js and progressing toward backend development, APIs, databases, and AI integration.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, TailwindCSS

Backend: Node.js, Express.js, MongoDB, REST APIs

Currently Learning: TypeScript, DSA, Gen AI, Docker

Tools: Git, GitHub, VS Code, Figma

PROJECTS

MacOS Portfolio — React · JavaScript · SCSS

A macOS-inspired developer portfolio featuring draggable windows, reusable React components, project cards, terminal-style content, and interactive UI.

JavaScript Mini Projects — JavaScript · DOM · Canvas

Hands-on projects focused on DOM manipulation, browser APIs, local storage, Canvas, events, and interactive functionality.

Full-Stack Applications — React · Node.js · Database

Planned applications combining frontend interfaces with backend APIs, database persistence, authentication, and real-world workflows.

EDUCATION

Bachelor of Computer Applications (BCA) — Currently Pursuing

Sheryians Coding School — Full-Stack Development Program

CURRENT FOCUS

React.js → Full-Stack Development → AI Integration

Learning through projects, debugging, implementation, and continuous improvement.

ADDITIONAL

Interested in software engineering, web development, AI tools, startups, and building practical products. Open to internships and entry-level opportunities.
